

Ad-Hoc Sea level Rise Committee Status Report

- Flood Resilience Checklist Evaluation workshop on February 29 – see <https://www.maine.gov/dacf/mgs/hazards/coastal/MaineFloodResilienceChecklistOverview.pdf>

The checklist is self-assessment tool for Maine’s coastal communities to evaluate vulnerability to flood hazards and increase resilience

- The workshop will be facilitated by Letitia vanVuuren, from the Knox County EMA office, and Bill Najpauer, from the Midcoast Economic Development District
- Suggested participants to involve in the process include Community planners, Municipal administrator, Code enforcement officers, Emergency managers, Public safety officials, Public works and engineering officials, Elected officials, Local leaders
- Comparing our situation to some neighboring towns:

Using the data from The Nature Conservancy Coastal Resilience Model
